Billy Broussard

Chairman

Chairman Broussard announced the next item, **To Consider a To Consider a Notice of Intent to Modify Commercial Netting Restrictions on False River, Lake Bruin and Lake Providence**, to be presented by Rachel Walley.

Ms. Walley stated that this NOI was to minimize conflict between recreational and commercial fisherman And a special recurring commercial fishing season, allowing the use of certain nets and slat traps, in Lake Bruin, Tensas Parish, and Louisiana. The season will commence each year at sunrise on October 1 and close at sunset on the last day of February the following year.

1. Commercial fishing with certain nets and slat traps will be allowed on Lake Bruin only during the above described special season and only by licensed commercial fishermen who must also obtain a Lake Bruin commercial fishing permit from the Department of Wildlife and Fisheries. The permit will be issued at no cost on a seasonal basis and must be renewed for each season. The permittee must also file a report to the Department of Wildlife and Fisheries of his catch that is postmarked no later than 15 days after the close of that season. The use of nets in Lake Bruin will be limited to gill and trammel nets greater than or having at least a minimum mesh of 3 1/2-inch bar and 7-inch stretch.

2. Commercial fishing will be allowed only during daylight hours except that gear can remain set overnight but fish captured may be removed during daylight hours only.

3. Failure to comply with the terms of the special permit or of any Louisiana commercial fishing regulations shall result in immediate cancellation of the permit for the remainder of the current season.

4. Failure to submit a timely report for a particular year's commercial fishing season shall result in the denial of a permit for the next year. If a report is eventually received after the deadline period for a particular year, the applicant may get a permit after skipping a year, however, if no report is ever filed, no permit for any subsequent year will be considered.

5.
